

PTZOptics iOS Camera Control App

Data Sheet

Requires iOS 8 or higher

PTZOptics | 152 Robbins Rd | Downingtown, PA | 19335 USA | PTZOptics.com

App Description

iOS App for iPhone & iPad Devices

App Description

The PTZOptics iOS Camera Control App provides incredible control of your PTZOptics™ cameras using the VISCA Over IP protocol. With the multitouch interface you can pan, tilt and zoom with variable speed for a smooth camera control experience. You can control up to four cameras simultaneously and store up to 10 preset positions for each camera. For productions that only use a single camera, this app provides a better experience by allowing for smooth transitions between preset positions.
